## Pea Ridge.

Our farmers have been hauling and threshing wheat.

Mr. Burge preached at the school-house last Sunday, and will preach at the same place on the fourth Sunday in August at 4 p. m.

Pea Ridge Sunday-school seems to be a success as far as attendance is concerned, and there would certainly be a large increase in scholars if we had enough teachers. Last Sunday there was an extra large attendance and but few teachers, not enough for the number of classes.

Mr. and Mrs. Geo. Childs and Mr. and Mrs. Wright, of Beech Ridge, visited the Ridge and attended school last Sunday.

A book has been going the rounds of the Ridge so dilapidated, being literally read to pieces. It is called Ten Men of Money Island, and is published in the interest of the People's Party. It is very ingeniously written, though obviously unfair, containing as it does a bitter denunciation of the creditor class. Its principles seem to be in number: 1st. Everything is wrong. 2nd. We are the fellows to set them right.

Mrs. George Kerslake, of Lexington, who has been visiting her brother, Mr. John Edge, returned home last Monday.

The ROUNDABOUT's kindly obituary notice of the late Jephtha Robinson has been read and favorably commented on by our people. He was a man that everyone liked; the Scribe never heard any one say a harsh or unkind word concerning him, and it would be selfish for any one to claim him as their friend, for he was everyone's friend.

The recent disastrous explosion on the Branch place, recorded in last week's ROUNDABOUT, by which those unfortunate young men, Sanders and Foree, lost their lives, is certain to be followed by a still more disastrous tragedy in various parts of the county. So many people have carried loaded barrels away from the scene of the explosion as relics, some of which are being used as mantel ornaments, bric-a-brac, &c. Close observers have remarked that wrecks, fires and tragedies occur in series of which the first was a mere trifle compared with that followed. The first explosion being in an open field only killed two victims, the next being in a house will slaughter whole families. The time is right soon and the place is (with sorrow the Scribe records it) not far from Pea Ridge.

## Teaching at Switzer.

Miss Mary Morris, who was an assistant teacher in the public school of this place last year, was chosen principal of the district school at Switzer, Franklin county. The Switzer district is quite a large one, and an assistant teacher is also employed. This school opened on Monday last. Miss Morris is an excellent lady and a competent teacher, and we do not doubt that she will give entire satisfaction to the patrons and trustees of the school.—Midway Clipper.

## Lexington Letter.

LEXINGTON, KY., July 26th, 1892.

Editor Roundabout:

If the business men of Frankfort were to see the splendid, smooth, clean, paved streets in this city, they would unite in a demand for paved streets in Frankfort.

Certainly Main, St. Clair and a part of Broadway ought to be paved on the score of economy alone. Of course it would cost, but it would be much cheaper than our present streets. The Standard Construction Company, now paying Lexington, guarantee their work and keep it in repair for five years. Their work here needs no recommendation, it only needs to be seen. Frankfort annually

## No Substitutes

For Royal Baking Powder. The "Royal" is shown by all tests, official, scientific, and practical, stronger, purer, and better in every way than all other Baking Powders. Its superiority is privately acknowledged by other manufacturers, and well known by all dealers.

If some grocers try to sell another baking powder in place of the "Royal," it is because of the greater profit. This of itself is good evidence of the superiority of the "Royal." To give greater profit the other must be a lower cost powder, and to cost less it must be made with cheaper and inferior materials, and thus, though selling for the same, give less value to the consumer.

LOOK with suspicion upon every attempt to palm off upon you any baking powder in place of the "Royal." There is no substitute for the "Royal."

spends on streets money enough that in five years would make our streets equal to Lexington's. SPY.

### The Old Original Remedy Leads.

Sick people should not be deceived by pretenders who talk about "Microbi," "germs," "baccilli," &c., to sell their preparations, thus preventing people from buying the original tested medicine. "Radam's Microbe Killer" is what you need. It is now, and for years has been, making more cures than all other remedies combined. Read their advertisement in this paper. Don't be deceived.

### Fired Him.

J. Allan Darnaby, the young playwright of Lexington, has been expelled from the Broadway Christian Church on account of his participation in theatrical entertainments. If in addition to the other offense he had in contemplation the writing of another such miserable play as a "Woman's Way" his sentence was just, and every one who has seen that piece produced will say amen.

# GOOD THINGS

ARE IN STORE FOR YOU.

THE GOOD THINGS WE REFER TO ARE IN OUR STORE, AND THEY ARE THERE FOR YOU AND EVERYBODY.

OUR STOCK IS LIKE A STREAM—hundreds take from it, yet it never diminishes. This, of course, is because there is a never-dying spring of supply that feeds the stream.

SLUGGISH STREAMS STAGNATE—So do sluggish stocks. They become decayed. They are not fit for commercial use any more than decayed meat. Finally, they are known as "dead."

CONSTANT MOTION KEEPS WATER IN THE BEST CONDITION—and a constant flow of trade keeps a stock in best condition. We have no dead stock, because our stock never stands still. It is always flowing out and flowing in.

DO YOU APPRECIATE THE ADVANTAGE of buying always from a clean, fresh stock of new goods? If you do, you can have that advantage by trading with,

A blast set off in the quarry at the west end of the railroad bridge, yesterday morning, threw a large stone clear up on High View, which alighted on the roof of Mrs. Lucy J. Connor's residence, breaking a large hole in the same. This is the second or third time that the same thing has happened, and it is becoming monotonous, as the lives of the inmates of the house are constantly in danger. The loads should be made lighter, or care taken to see that the rocks do not fly so high.

## Atkins' Patent Concave Tooth Dexter.

DIXIE'S FAVORITE. FOR THE WOODS OF THE SOUTH IT HAS NO EQUAL. The patent by which this Saw is protected consists of a depression of the face of the cutting tooth through the center from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing three-fold the durability of the "set." WE CHALLENGE THE WORLD to produce a Saw equalling the ATKINS PATENT CUTTING DEXTER.

PRICE: (Silver Steel, including Handles, \$1.00 per foot. (Special Steel, Without Handles, .75 per foot.

**BEWARE OF IMITATIONS.** The large demand for the ATKINS CONCAVE TOOTH DEXTER SAW has led competitors to make inferior saws which they claim "as good as the Dexter." These imitation Saws are made from a lower grade of steel, inferior workmanship, and without the patent concave tooth. Ask your hardware dealer for the "ATKINS DEXTER" and take no other. If the dealer will not order it for you, remit amount with order direct to us.

### A Plucky Driver.

Mrs. Polk-South and her four children were coming into town from their home on the Versailles pike, yesterday afternoon, about 3 o'clock, in a survey, and about the top of Arsenal Hill the horse they were driving took fright and ran away. Her son Lindsay, a little fellow about 13 years of age, was driving and held manfully to the reins, keeping the horse in the middle of the road, and the balance of the occupants of the vehicle had sufficient presence of mind to keep their seats. They dashed down Main street at break-neck speed, every man they passed on the way attempting to stop the horse, but the manly little driver sat like a statue, with his feet firmly planted against the dashboard and safely steered the frightened animal past every obstacle.

On they went until Wilkinson street was reached, by which time the horse had begun to slow up and Lindsay made the turn of the corner without accident, succeeding in stopping the horse near the residence of Hon. W. J. Chinn. By this time a number of gentlemen who had followed the flying surry down the street, arrived on the ground, and persuaded Mrs. South and her daughters to get out of the vehicle, but Lindsay held on to the lines, declining to yield them to anyone, and with Messrs. Ben Marshall and Fred Gordon seated on the back seat, he drove off and rushed the thoroughly fatigued mare around the street until she was willing to step when he said so. He was as cool as a block of ice, and said he intended to drive the mare as long as there was any run in her.

Fortunately the harness and vehicle held together and no damage was done to any of the occupants, further than giving them an exciting experience on a warm day.

### The Oculist.

Prof. Louis Landman, the eminent Oculist, is at the Kenyon Hotel, and if your vision is imperfect you should call and let him fit a pair of glasses for you. He does his work on scientific principles, and, if you will secure a pair of his glasses, they will improve your impaired vision. He will call at your residence if you prefer not to go to the hotel, and will make examination of your eyes free of charge.

The following people of this city are using Prof. Landman's glasses and they pronounce them the best they have ever used, viz: Mrs. Dr. Williams, Dr. Lucy, Dr. Tompkins, Mr. and Mrs. S. T. Fortune, Mrs. Arch Overton and many others.

### To Versailles.

On account of Fair at Versailles, Ky., the L. & N. R. R. will, on August 3d, sell round trip tickets to Versailles, Ky., good to return until and on August 6th, at 75 cents. Special trains will be run on above date from Midway to Versailles and return.

### Licensing Engineers.

The question of licensing engineers is being so agitated in every State in the Union that within a short time, for the protection of human lives, it will be impossible for any one entrusted with steam to hold or secure a situation without passing a rigid

examination and obtaining a license. Stephenson's Illustrated Practical Test has been published to aid engineers preparing to pass such examination, and as it embraces all the questions asked on the Boiler, Pump, Engine, Dynamo, Corliss Engine, &c., it has already met with such a demand that it is now in its fourth edition. This work, which only costs \$1, can be obtained of the publisher, Walter C. Kraft, 70 La Salle Street, Chicago.

### Rare Opportunities.

The Queen & Crescent Route will place excursion tickets on sale to Texas, Arkansas and Indian Territory, at greatly reduced rates, on August 30th, September 27th and October 25th, good for return 30 days from date of sale.
